Frontend Developer (React/Next.js)

https://aleksander-portfolio.netlify.app/ | https://soraweb.pl/

SUMMARY

- Frontend Developer with a strong focus on React/JavaScript and building polished, responsive interfaces.
- I deliver projects end-to-end from understanding requirements and design handoff to deployment and iteration
- Experienced with SSR and SEO in Next.js, with a performance mindset (Core Web Vitals, Lighthouse).
- My edge is interaction design + motion (GSAP/ScrollTrigger, Framer Motion) that improves clarity and user experience.
- I also build WebGL/Three.js/GLSL features as a premium layer when visuals and performance matter.

SKILLS

Technical

- **Frontend**: HTML5, CSS3, Tailwind CSS, Responsive Web Design
- **Core**: React, Next.js, TypeScript, JavaScript (ES6+)
- **UI & Motion:** GSAP (ScrollTrigger), Framer Motion
- **State managemen**t: Zustand
- **3D (bonus):** WebGL, Three.js, React Three Fiber, GLSL, postprocessing, instancing
- **Quality:** Core Web Vitals, Lighthouse, SSR (Next.js), SEO
- **Tooling:** Git, GitHub, npm/yarn, Vercel / Netlify

Languages & others

- **Languages**: English (B2), Polish (Native)
- **Design**: Figma, Blender
- **Soft Skills:** Client Communication, Problem Solving
- **Workflow**: Project Lifecycle Management

EDUCATION

Master's Degree in Teleinformatics
10.2023 - 09.2024

Poznan University of Technology

Final grade: **5**

Master's thesis: Implementation and performance analysis of GPU-based algorithms in web environments

Bachelor's Degree in Teleinformatics
10.2019 - 07.2023

Poznan University of Technology

Engineering thesis: Platform for printing spherical photos as Platonic solids

PROFESSIONAL EXPERIENCE

SoraWeb Studio | Founder / 3D Web Developer
2025-05 - Present

- Building client-facing websites and web apps in React/Next.js + TypeScript, with strong UI polish and responsiveness.
- Implementing motion and interactive patterns (GSAP/Framer Motion) and refining based on feedback.
- Owning delivery: scope, UI direction, deployment, and ongoing optimisation.

Mucha Sp. z o.o. | Contract / Freelancer
2023 - 2024

- Delivered an interactive website for a group piano learning device ecosystem.
- Produced 3D assets and realistic renders to support product presentation and communication.
- Implemented styling based on designer-provided mockups (BabyLink project website).

WalkSee | Internship
09.2022 - 10.2022

- Researched geometric approaches for displaying spherical photos using Platonic solids.
- Created the landing page layout and animations (Blender → web implementation).
- Built vertex-based solid generation in JavaScript + WebGL with manual UV mapping.
